I am writing to express my interest in your Company!
I have a strong passion to develop a iOS Application and 2+ years experience of developing iOS application by my self and at school!

Currently majoring in Mobile application development in my collage and will receive my degree next spring (May 2023)
and Co-op program will start from (May 2022, 1year)
I can work full-time from May 2022!
And I have a passion to start a career as a Software engineer in Canada!

I really love computer science and creative works. Especially , Swift (I love Apple products) ,Design , Crypto , ..etc
Also I have a huge interest for a new technology that can make a bug impact for our life like as trans humanism Shortly ,It's a new tecnology)
So I am a quickly learn and have a curiosity to new things!

Also I am interested in helping people through my volunteer experience to support children who haven't enough money to go to school at Philippines.
They had a wonderful dreams and I can still remember ther beautiful eyes that seeking for a beautiful ther future.
I learned a lot of things through this experience and decided to work for it with my major.
So i want to improve my development skills and problem solving skills.

I'm really excited about working at Angi.

Because your company has a wonderful policy,vision and services that for a supporting people!
Also That can reach a lot of people ! That's really make me excited!
So I would like to join your community and work together for helping people !

While I studying at my collage ,I focused on creating iOS app with using Swift and SwiftUI.
Also I learned Java,Python or other database things like as firebase.

In my school project , I made a Business matching apps that can connect a Person and Workplace(I attached a document about my apps)
I learned a collaboration skills with my team member and problem solving skills .

I want to be a professional for iOS platform and Mobile and Commit my career for them at Your company!

Tunagu App (Business Matching App)

I made a Business matching app that can help people finding Workplace easier.

You can find your own favourite workplace like watching SNS.

Tunagu which means Connect in Japanese. This app can be a place that you can find exciting connections in your life !
